ÖNSÖZ

Bu yıllık, Bakanlıkça daha önceden seri olarak yayımlanan Türkiye Sağlık İstatistik Yıllıklarının bir devamı olup 1982 - 1986 yıllarını kapsamaktadır.

Yurdumuzda mevcut tüm sağlık kurum ve kuruluşlarından derlenerek yayımlanan bu istatistikî yıllıkların amacı, koruyucu ve tedavi edici sağlık hizmetlerinin ülke çapındaki durumunu yansıtmak ve çeşitli kademelerde hizmetlerin yürütülmesi ile ilgili sağlık plan ve programlarının hazırlanmasında yardımcı olmaktır.

Türkçe ve İngilizce olarak hazırlanan bu yıllıkta, başta Sağlık ve Sosyal Yardım Bakanlığı olmak üzere diğer bakanlıklar ve resmî kuruluşlar, üniversiteler, belediyeler ve özel kişilere ait sağlıkla ilgili kuruluşların çalışmalarına yer verilmiştir. Ayrıca Devlet İstatistik Enstitüsü'nce derlenen ve yayımlanan nüfus ve ölüm istatistiklerinden de bazı tablolar alınmıştır.

Bu yıllıktaki istatistikî verilerin derlenmesinde katkıda bulunan Bakanlığımız merkez ve taşra ölgütleri ile Bakanlığımız dışındaki kuruluşlara teşekkürlerimizi sunmayı görev bilmekteyiz.

FOREWORD

This year-book, is the continuation of the Health Statistics Year-Books of Turkey which were published in a series formerly by the Ministry and covers the years of 1982 - 1986.

The aim of these statistical yearbooks issued as collected by all health organizations and establishments present in Turkey, is to reflect the countrywide situation of both the preventive and therapeutic health services and also assist in the arrangement of health plans and programmes concerned with the running of services at different levels.

In this yearbook prepared in Turkish and English, information concerning mainly the activities of the Ministry of Health and Social Assistance as well, the health service activities of other ministries and official establishments, universities, municipalities and private establishments concerned with health, is included. Also some statistical tables concerning population and mortality statistics collected and published by the State Institute of Statistics have been added to the yearbook.

On this occasion we feel it duty to express our gratitude to the members of the central and provincial organizations of our Ministry and other organizations outside our ministry for the assistance contributed in compiling the statistical data mentioned in this yearbook.

Not : Bazı illerde genellikle doğu illerinde, ortalama evlenme yaşının geçmiş yıllara göre arttığı görülmektedir. Yapılan araştırmalar evlenme yaşındaki artışın dini nikâh ile evli olan çiftlerin idari ve yasal tedbirler sonucunda resmi nikâh yaptırımlarından kaynaklandığını göstermiştir

Note: It is seen that average age of marriage has increased according to the previous years in some cities, especially in the east. Researches have showed that the reason of this increase in average age of marriage is the administrative and legal precautions which made religion married people have formal marriage

1 ampul serum bir akrep kuyruğunun zehirini nötralize edecek kuvvettedir.

1. Sera, shown as «Bottles».
2. An ampul containing serum it as strong as neutralizing the poison of a scorpion's tail, serum of scorpion is shown as ampule.
