ÖNSÖZ

Sağlıklı yaşam hakkı Anayasamız ile teminat altına alınmış, vazgeçilmez ve devredilemez temel insan haklarından. Her vatandaşımızın sağlık hizmetlerinden gereksinim duyduğu yerde ve ölçüde yararlanması, geniş coğrafi alana sahip olan ülkemizde bölgesel ve yerel eşitsizliklerin giderilmesi, halkımızın sağlık düzeyinin devamlı olarak yükseltilmesi temel amaçlarımızdandır.

Sağlık hizmetlerinin bir Devlet görevi olarak ele alındığı Cumhuriyetimizin ilk yıllarından bu yana sağlık kurumlarımızın yaygınlaştırılması ve etkinliğinin artırılması için çalışılmaktadır.

Sağlık enformasyonunun sağlık kurumlarımızda gereğince kurulup işletilmesiyle, sağlık hizmetleri izlenebilecek ve amaçlarımız doğrultusunda yönlendirilebilecektir.

Bu yayın, Bakanlığımızca 1964'den beri yayınlanmakta olan yıllıkların bir devamı niteliğinde olup, 1987-1994 yıllarını kapsamaktadır. Yıllıkta ülkemizde Milli Savunma Bakanlığı dışındaki bütün sağlık kurumlarından elde edilen verilerden derlenen bilgiler sunulmaktadır. Bu bilgiler, kurum ve kuruluşların çalışmalarının değerlendirilmesinde, sağlık plan ve programların hazırlanmasında yararlı olacaktır.

Bu çalışmaya katkıda bulunan hizmet birimlerine ve görevlilere teşekkür ederim.

PREFACE

The right healthy life, guaranteed by the constitution, is one of an essential and nontransferrable basic human right. Utilisation of health care services by every citizen whenever and whatever needed, elimination of regional and local inequalities, and improvement of health status of the community are some of our primary aims.

Since the first years of the Republic, considering the health care service as a responsibility of the state the health care institutions have been spreading to over all the country and increasing their effectiveness.

By the establishment and management of health information in the health care institutions, health care services could be monitored and directed in line with our aims.

This publication as a part of the serial publications of the Ministry since 1964, covers the period of 1987-1994. This year-book presents the information gathered from all health care institutions in the country, excluding the Ministry of Defence. This information would help to evaluate the works of the institutions and to prepare health plan and programs.

I thank to the units and the staff who participate in this study.
